

Home Safety

Knowing the people in your neighborhood or building where you live can help keep you safe.

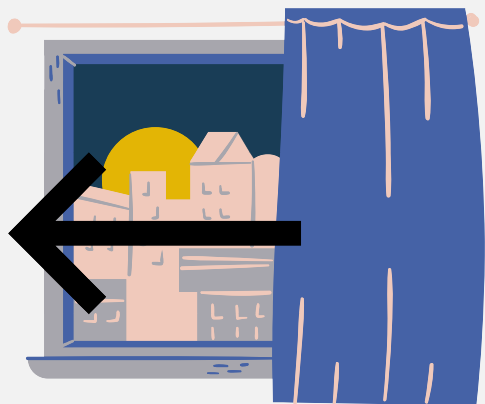

Lock all doors and windows at night and when you leave.

Don't tell strangers when you will be away or where you keep your spare keys.

Close the curtains or blinds for privacy when you change your clothes or use the bathroom.

Make sure smoke alarms, handrails, safety bars, and alarms work.

Make a safety plan with who to call, where to go, or what to do in case of an emergency.
