

SENSORY STORY TIME AT THE LIBRARY

Sometimes I may go to the library for sensory story time.

Sensory story time is where I can go to hear stories, sing songs, and play with toys.

Sensory story time will be with a small group of people, often 10 or less.

A parent or caregiver will stay with me during the sensory story time.

We may also have an activity that we do together.

There might be a visual schedule that will tell me what we are doing during the event.
