

ATTENDING A MOVIE

I can see a movie in a movie theater.

I will need to buy a ticket at the counter in the lobby.

Sometimes I can also buy a snack or a drink to enjoy during the movie.

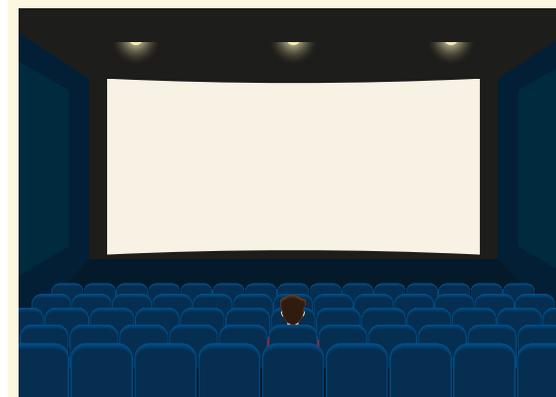

When it is time to go to my seat, I should give my ticket to the theater staff. They will tell me where to go.

The theater will show previews of other movies before they show the movie I want to see.

When it is time for the movie to start, the theater will get dark.

ATTENDING A MOVIE

If I bought snacks, I can eat them during the movie.

I should stay quiet during the movie. Other people will be upset if I talk during it.

Sometimes the movie can get loud. I can bring headphones with me to help protect my ears.

If I want to take a break during the movie, I should be very quiet when I leave.

When the movie is done, the theater will turn the lights back on.

I should put my trash into a trash can when I am leaving the theater.
