

# Montgomery County Autism Census

The PA Autism Census Update, conducted by the Autism Services, Education, Resources, & Training Collaborative (ASERT), provides a count of the number of individuals with autism who are receiving service in Pennsylvania. It identifies where these individuals live and which systems are supporting them. The Centers for Disease Control and Prevention (CDC) tracks the national autism prevalence using population surveillance. We have included the estimate of the number of individuals in this county based on CDC prevalence rates to compare to the number of individuals receiving services in PA identified by the PA Autism Census. This information can be a powerful tool to help you, your family, decision-makers and others in your local community to understand autism in Pennsylvania by highlighting where and how individuals with autism are receiving services.

## Census Estimate:

2005: 1,109 | 2011: 1,690 | ▲ Increase 97%

## CDC Estimate:

2005: 6,177 | 2011: 11,827 | ▲ Increase 91%
