

# SUBWAY TIPS

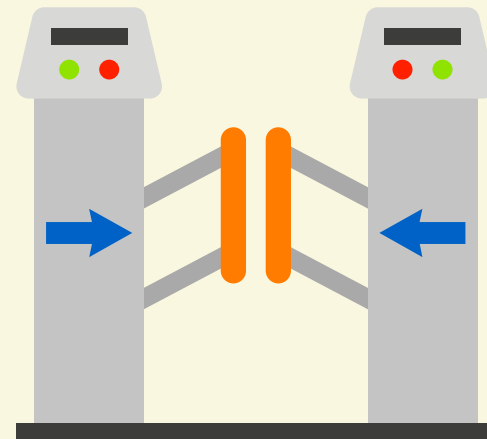

If I need to get somewhere in the city, I can take the subway.

I will find the nearest subway entrance and buy a ticket. If I can, I will buy my ticket or subway pass ahead of time.

Next, I will walk to the ticket barrier and insert my ticket or scan my subway card.

I will walk to the correct platform and wait for my train behind the yellow lines.

If this subway is too crowded or noisy and I'm not in a rush, I'll wait for the next train.

When the train arrives, I will let others exit before I get on.

# SUBWAY TIPS

I will find a seat or a place to stand, hold my stuff, and respect others.

I will know the order of stops so I can be ready with all of my things when it's time to get off.

I will make sure I am exiting safely but quickly since the doors are on a timer.
