

DURING THE PAROLE HEARING

My parole hearing may be in person or virtual.

My parole agent and the parole board will discuss my crimes.

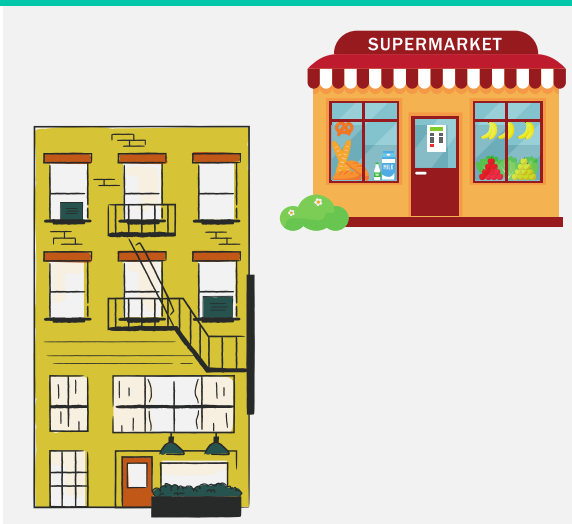

The parole board will also hear about my behavior in prison.

The parole board may ask about my mental and physical health.

They may ask where I will live and if I plan to work.

I can share my autism diagnosis with the parole board if I want.

DURING THE PAROLE HEARING

If I don't understand something during my hearing it is okay to ask the hearing examiner to explain.

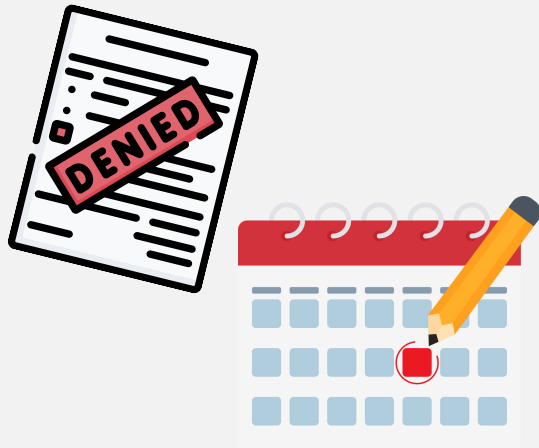

If I am granted parole, my parole agent will help me get ready to be released and explain the rules I have to follow after I am released.

A parole agent can also help find housing, employment and other support.

If I am not granted parole, I will be eligible for another parole hearing at a later date.
