

USING TRANSPORTATION SERVICES

Mass Transit: Taxi Service, Uber and Lyft

Many adults with ASD prefer to use public transportation instead of using their own car or relying on other people to give them a ride to the places they need or want to go. For this reason, it is important to become familiar with mass transit options, and the social rules to follow when using public transportation.

You can **WAVE A TAXI DOWN** when it has a lit sign on its roof.

You can **CALL TO SCHEDULE A PICK UP AT A SPECIFIC LOCATION.**

KNOW THE ADDRESS OF WHERE YOU ARE GOING.

THERE IS NO MONEY DIRECTLY EXCHANGED, rather all transactions are paid through the apps.

Similar to traditional taxis, but allow **INDIVIDUALS WITH SMARTPHONES TO SUBMIT TRIP REQUESTS THROUGH SPECIFIC APPS.**

DRIVERS USE THEIR OWN VEHICLES, but prices are similar to that of traditional taxi fare. During rush hour or bad weather, prices may increase.
