

Sometimes I feel anxious.

This is okay.  
I can use tools to feel better.

I can take a break, sit some place quiet, and close my eyes.

I can imagine myself some place relaxing, like on a beach or with my family.

I can think about things that make me happy.

I can take 5 slow deep breaths in through my nose and out through my mouth.

I can drink a glass of water.

I can exercise, stretch, or take a walk.

I can do a relaxing activity, such as drawing, listening to music, or reading.

I can use a relaxation toy, such as a fidget toy or stress ball.

I can talk to a trusted friend or family member.
